

# ECORANGERS

**Eco Rangers with Bord na Móna encourages pupils to get back out to nature, develops their awareness of biodiversity and fosters a sense of guardianship for their environment.**

By completing an Eco Safari, pupils explore habitats and ecosystems. Schools nationwide have uploaded over 140 Eco Safaris to [www.ecorangers.ie](http://www.ecorangers.ie), building an online repository of flora and fauna across Ireland to share with their community. This year, 100 schools have been recognised through Eco Rangers Awards, showcasing the efforts of pupils and their teachers to protect their locality.

*"5<sup>th</sup> Class has gained great benefit from participating in Eco Rangers. We discovered a wealth of wonderful nature on our doorstep in Daingean. We linked our Eco Safaris to poetry, song and story (History). The activity lends itself perfectly to curriculum extension."*

*Lily Colgan*

Daingean National School
